MOVA Diver R10

Effortless Pool Care in a Tiny Drop

The cordless robotic pool cleaner Diver R10 is built for small, flat-bottom pools*—whether above-ground or in-ground. Equipped with two suction inlets and a dual-motor system, it delivers 5,700LPH suction to capture debris. Driven by a 4,000mAh battery, R10 runs for up to 120 minutes. It's ready to use right out of the box, simply activate it with a single touch. Its lightweight build makes it effortless to lift, with a filter that's simple to clean. Plus, auto-parking technology* guides the cleaner to the pool's edge for easy retrieval.

Key Features

Dual-Motor Delivers 5700LPH Suction

Dual motors deliver 5,700LPH* suction power to easily capture leaves, dirt, and other debris from the pool floor, keeping your water crystal clear.

Enjoy up to 120 Minutes of Cleaning per Charge

The 4,000mAh battery delivers up to 120 minutes* of continuous cleaning on a full charge. Its extended runtime allows you to spend more time enjoying your pool and less time on maintenance.

Quick Start, Hassle-Free Filter Cleaning

It's ready to use right out of the box. With a single click, it powers on instantly, making pool maintenance simple and user-friendly. The built-in filter is easy to wash—just rinse it clean in seconds.

Lightweight Design, More User-Friendly

Designed for convenience, R10 features a lightweight, compact build that allows for effortless lifting and retrieval. You can carry it easily with just one hand.

*The illustrations in this manual are for reference only. Please refer to the actual product.

*Small, flat-bottom pools: R10 is optimized for above-ground pools and in-ground flat-bottom pools up to 80m² in size, based on our in-house lab testing. It is not recommended for use in other pool types.

*Auto-parking technology: The cleaner automatically parks only when its battery runs low. Please make sure it's sufficiently charged to prevent its cleaning from stopping early.

*5,700LPH: Tested under maximum power condition, based on our in-house lab. Actual performance may vary.

*120 minutes: The battery runtime is measured based on our in-house lab testing. Actual performance may vary.
